

Research at CapitalCare: Long Term Care Environments

Recovery after hip fracture in geriatric ambulatory patients living in nursing homes
(REGAIN study)

Beaupre, Lauren; Majumdar, Sumit; Jones, Allyson; Johnston, DWC; Wilson,
Donna

Role of environmental design on reducing medication and nursing errors in long-term
care

Chaudhury, Habib; Mahmood, Atiya

Shifting from institutional environments to homelike settings: Are they really more
like home?

Chuck, Anderson

Using environmental modifications to facilitate swallowing and eating in long-term
care residents with dementia

Cleary, Stuart; VanSoest, Deanna; Milke, Doris

The QWEST: Quality Work Environment Study

Cummings, Greta; Spiers, Judith

How can CapitalCare balance residents' needs for a homelike environment with
caregivers' needs for efficient ways to deliver care?

Liu, Lili; Milke, Doris; Maisey, Suzanne; Mayan, Maria

Impact of environmental change following a move from a traditional continuing care centre to a purpose-built centre: Exploring resident, staff, environmental and system indicators

Maisey, Suzanne; Liu, Lili; Van Soest, Deanna; Milke, Doris; Wark, Connie; Konnert, Candace; Schalm, Corinne; Cleary, Stuart

A five-site comparison of care settings built on the Woodside Place Model

Milke, Doris; Beck, Charles; Ledewitz, Stefani

Life lease ownership by the elderly of suites where they receive continuing care services: Views of companions, families and elderly clients

Milke, Doris; Beck, Charles; Wark, Connie; Schalm, Corinne

Space utilization study for quality improvement

Milke, Doris; Walsh, Tara

The effects of relocation stress on the food and fluid intakes of continuing care residents with dementia

Van Soest, Deanna; Cleary, Stuart; Milke, Doris; Wark, Connie; Schalm, Corinne; Maisey, Suzanne
