

### **Dropping off Items for Staff / Residents**

We are asking families not to drop off items for residents or staff at our centres, including specialty food or personal items. This keeps our front office staff free to provide essential services to keep the residents safe and minimizes the gathering of people at our entrances.

If your loved one has a specific need, please call (780) 448-2427 to talk to someone about how that need can be met.
